

You will create a project of art, architecture, and literature from the Republic and Empire period. The project will include at least one example of the three areas from both periods. There should be a total of no less than six works on the project. Some examples of all three are shown below. Your project may be done in any fashion as long as it is not a PowerPoint.

Republic
Architecture

Empire

Sculpture

Empire
Sculpture

The peace that the sailor seeks in the storm
And the rest that's the warrior's aim
Can't be purchased with wealth in any form
Nor, Grosphus, with power or fame.
The pauper who wants only what he can afford
Sleeps soundly. But he who would fly
To new fortunes, although he hastens abroad
Speedy vessels, sees his trouble stand by

Horace (65-8 B.C.)
